BRAND POSITIONING

Brand positioning refers to the place a brand and all its associations (characteristics, attributes, personality, defects, etc.) occupy in a person's mind in a distinctive way, compared to its direct and indirect competitors. Brand positioning enhances the emotional connection between a brand and its consumer and is what drives their choice through comparisons with other brands.

Aiming to achieve the top position in the category of adult tourism, Temptation exploits the fun aspect of its concept. It uses an identity that allows it to project a daring personality, while remaining exclusive.

HISTORY OF THE BRAND

TEMPTATION RESORTS & CRUISES

1974

Original Resorts was founded in 1974 thanks to the entrepreneurial vision of Don Diego de la Peña. He opened the first hotel in Cancun named Playa Blanca, offering 42 rooms.

1997

Due to the rapid growth of tourism in Cancun, Playa Blanca was remodeled and expanded to 216 rooms. Its name was changed to Blue Bay Village.

Blue Bay Village expanded in 2001 with the purchase of its neighboring resort Plaza Las Glorias. With 384 rooms, it changed its name to Blue Bay Getaway and adopted a new, topless-optional concept that was exclusive for adults.

2007

We completely remodeled Blue Bay Gateway and converted it into Temptation Resort and Spa Cancun, maintaining the same concept however improved the services offered.

2017

We completely rebuilt Temptation Resort & Spa Cancun and converted it into Temptation Cancun Resort, maintaining the same concept and enhanced the services offered.

2018

As part of our brand expansion, we announced our first Temptation Caribbean Cruise, strengthening the Temptation concept and taking it to high seas!

2019

Seeing the fast-growing interest in our cruise, we announced our second voyage, sailing in February 2021.

2020

With over 2,500 passengers, our first cruise set sail completely sold out and was a complete success, marking the beginning of a Temptation Cruises era.

VOICE & TONE

Our concept alludes to a longing that all adults have inside. The rules and limitations of society, and the “no” we are accustomed to hearing, lead many to hide their sexy side.

Through our voice and tone, we seek to communicate confidence, making our target audience feel comfortable in their own body, tempting them to discover the mentality of our playground, where they can express their curiosity.

WRITING CONSIDERATIONS

To be successful in creating content that is aligned with Temptation's goals, consistency is key. Content creators must understand and internalize the communication perspective of the brand to be able to produce content according to it. It is important to consider the following:

GENERAL LANGUAGE

Relaxed and conversational, friendly and accessible, reflecting at the same time the sexy and fun personality of our cruises.

WORDING

Descriptive, inviting, playful and energetic. By using active verbs and adjectives, we inject our personality in our speech.

PRONOUNS

This sexy and free-spirited world traveler is a person who feels entitled and who appreciates acknowledgement and recognition. We speak in first person to you (the guest) and not in third person. This instills identification and closeness, which is very important to our brand.

DON'TS

At all cost, steer clear of language that is sexually explicit, raunchy, vulgar and that does not represent the chic, sexy, upscale personality of our brand.

OUR
VISUAL IDENTITY

CREATIVE STRATEGY

The graphic proposal for Temptation concludes the strategic work of communication.

The graphic, typographical, chromatic and visual elements used in the identity, connect in a timely and accurate way, for an attractive visual proposal with the values of the brand.

The identity, by itself, can transmit the fun and avant-garde character of Temptation.

LOGOTYPE

Our logo is the visual identification of our brand, consisting of text and an icon, which despite looking well separate, should be used together for better recognition in the market.

The logo should be used as an identification element and not as a design element. It is important that each user of the visual identity system is aware of the need for coherence in corporate visual expression. Coherence is the key to success in an environment where signs and symbols play a fundamental role.

ISOTYPE

Throughout history, the apple has been a symbol of Temptation, which is why it is a fundamental part of our image.

Icon of our graphic identity, the use of our isotype is a simplified way of recognizing ourselves in every place and every time.

It can be used as an ornamental badge, and in very specific cases, to replace the imagotype (mainly within the company's facilities as well as in small format materials, such as promotional or stationery items).

VARIANTS

The logotype color variants will be used if the conditions do not allow for corporate colors to be used.

The positive or negative versions will be used, as the correct way to use these applications in monochrome maintains the readability and understanding of the logo.

PROPORTIONS

RETICLE

It is important that the original proportions of the logo are not modified.

Although the size is altered, it must be scaled proportionally. Guiding us through this grid, we can reproduce in any medium whatever its dimension and means of reproduction. The symbol and logo will always keep the following proportions and composition (see illustration).

MINIMUM SIZE

To guarantee the optimal readability of the brand, maintain visual integrity and not lose recognition and identification, a minimum recommended size of 0.75 cm in imagotype and 1 cm in height for isotype is established, for digital uses the minimum is 30 px high (see illustration).

There is no maximum limit on the size of the logo.

Printed 4cm

Digital 30px

Printed 1cm

Digital 30px

PROTECTION AREA

PROTECTION AREA

The brand will always need a protection zone (minimum amount of “free” space that frames it), and it must be respected and not be occupied by any disturbing element.

Use the altitude line of the “x” as the unit of measurement to obtain the protection zone.

 1x x is equivalent to the letter “O”.

INCORRECT USAGE

- 01. Do not alter the original composition of the brand.
- 02. Do not individually increase or reduce the size of any of the elements of the brand.
- 03. Do not add contours.
- 04. Do not use gradients.
- 05. Do not rotate.
- 06. Do not use colors other than official ones.
- 07. Do not deform the brand.
- 08. Do not add any kind of effects.
- 09. Do not alter in any way its composition.

ON COLOR BACKGROUNDS

Avoid using the brand in full color with shades and backgrounds that can be confused with corporate or do not contrast well.

OVER PHOTOGRAPHY

The logo must be positioned in a clear or clean area of elements, preferably in a single color and without extreme tonal variations.

SLOGAN

The slogan, “Naughty By Nature”, refers to the safe and comfortable spaces that our brand offers to the free-spirited traveler.

The slogan has three formats:

1. In two lines
2. In one line
3. Accompanied by the logo

The third format can be accompanied by the logo, if it has a vertical divider line.

Also, all slogans should be in Stone Harbour typography, horizontally or vertically, and font size can vary to add dynamism.

Secondary slogan:

“A FANTASEA PLAYGROUND FOR GROWN-UPS!”

Neither the slogan nor the secondary slogan can be modified in more lines or other colors.

PATTERNS AND GRAPHIC ELEMENTS

The elements and patterns that should be used in the graphic material are the brand's signature anchor and wavy lines, these give dynamism and vitality to the design.

The suggested patterns represent sensual minimalism, characteristic of Temptation.

For marketing material, use magenta and navy-blue lines and patterns. For corporate materials, use the texture of colors to create a relaxed vibe for all company employees.

PHOTOGRAPHIC STYLE

The image system of the brand consists of the following parameters:

CONCEPT

Every image should represent the values, characteristics, and identity of the brand. The images should present men and women, between 30 and 35 years old, that reflect how sexy, naughty and fun our Temptation Cruises are, showing how the endless, stimulating party atmosphere is experienced aboard, both day and night, and the adults-only experience with optional topless areas, without being explicit in topless content.

FACILITIES

Photos or representations of the cruises' signature areas.

ASPIRATIONAL

Images taken at the cruises or from image banks, which represent the emotions and lifestyle that the market can live through the brand.

Every advertising element must contain at least one of the 3 types of images, and no more than 2 photos of the same item. So that in the same ad we can project different messages, which together provide a more complete idea of the brand and its benefits.

It's important to consider that the texts are a fundamental part of any publicity; thus, the texts and images must be complementary and not be redundant with each other. All images must be approved by the corporate Marketing Department, this to guarantee the correct application of the same.

All images must be approved by the corporate Marketing Department, this to guarantee the correct application of the same.

PHOTOGRAPHIC STYLE

Maintain a standardized use of filters and saturation, preserving a vivid and warm quality.

PHOTOS OF FOOD AND BEVERAGES

Make sure that illumination and focus are on the element that you are aiming to showcase. In attempts to highlight brightness, color and texture, lean on other elements that can dress up the image.

ARCHITECTURAL PHOTOS

Daylight is the feature element that transmits life and warmth. When possible, avoid sunrises and sunset, as they tend to transmit nostalgia. If there is no use of people, try to use colorful elements that generate contrast or that are dynamic. The setting, costumes and props should project fun/party.

PHOTOS OF PEOPLE ON PREMISES

Use expressions according to the use or activity.

PHOTOS OF PEOPLE

Use warm colors with high contrast. It is recommended to use models with an average-build, ranging from 35 to 45 years of age. Men in casual/elegant wear (avoiding nude torsos) and women with attitude in sexy attire.

APPLICATIONS

GRAPHIC GUIDELINES

GENERALS

The basic guidelines provide the base for the creation of the brand material, from the paperwork to the signage.

All the material for internal or external use has to have the imagotype or isotype, without modifications or color/form changes.

The font for the composition of the cruises' materials is black Aaux ProRegular at 90%. For phrases or titles in the material, the font must be Din Condensed Bold, and when it is only one phrase, the size and alignment could vary.

The magenta lines will be used to decorate the material that is not saturated by text, and to divide images or promotions. If possible, all the material has to be in two languages (English and Spanish), if both texts are close together, we can differentiate them by importance.

INTERNAL OPERATION MATERIAL

The internal operation material must carry the isotype instead of the complete logo so that guests get used to seeing it by itself, thus becoming the most representative part of the brand.

In the same way, if its use and format allow it, we can include promotions or relevant information that benefits other cruises services.

When dealing with materials that by their format can be used by the client, we will include our website to convert them into potential advertising materials.

STATIONERY

The logo will be used in its full version in formal documents, as well as the website, address and contact information.

Magenta lines may be used only if enough space is available. Version 2 of the slogan can be used as a decorative element, if the imagery is used in isolation.

Height X: Refers to the small box letters and lowercase letters height, excluding ascending and descending.

Spot varnish: A varnish is a uniform mixture of one or more resins diluted in a solvent. It easily dries upon contact with the air, as the solvent evaporates, resulting in a layer or fine film on the surface to which it is applied. In printings, when the spot varnish is applied to a specific area, it gives it a matt or glossy texture.

CMYK: Abbreviation for Cyan, Magenta, Yellow and Key, the CMYK is a subtractive color model utilized in color printing. It allows a wide-range of colors to be represented that can be adapted for industrial purposes.

Typography font: Is what is defined as style or appearance of a complete group of characters, numbers and signs, governed by common graphic characteristics.

Isotype: Isotype refers to the iconic or highly-recognized part of a brand, whether it be corporate, institutional or personal. This element constitutes the identity design, with a high value in the project hierarchy, which also creates a connotative map for the logotype design. As in the remaining stages of the corporate identity project, as well as the stationary, vehicles and merchandising. The word isotype, refers to “the same type”.

Offset: This printing technique is basically used to reproduce documents and images on paper or similar materials. The process consists of applying an oily ink on a metallic plate. The plate takes the ink to different repelling-water areas, as the plate soaks-in water, the ink is repelled; the image or text goes through pressure duplication from a rubber blanket cylinder, printing the elements onto the paper.

Pantone: An identification system that compares and communicates color in graphic arts. This system is the most recognized and utilized, for this reason Pantone is normally referred to as the color control system. This color model, unlike CMYK and RGB systems, tends to be known as a “solid color”.

Pattern: The pattern or motif is an image, that when placed next to identical copies, can be repeated forever without breaking.

RGB: This color model is based on additive synthesis, making it possible to represent a color, through the combination of the three primary colors, red, green and blue. Its name was created by taking the first letter of each color. The RGB model does not exactly represent the colors red, green and blue, the RGB values can depict relatively different colors, on different devices using this color model.

Serigraphy: This printing technique is used to reproduce documents and images on any material. It transfers ink through a tense, framed mesh. The blank areas are blocked with an emulsion or varnish, protecting the zone where the ink will pass.

This printing system is repetitive. Once the first model has been produced, the printing process can be repeated as many times as required, without losing its resolution.
