VOICE & TONE

Our concept alludes to a longing that all adults have inside. The rules and limitations of society, and the "no" we are accustomed to hearing, lead many to hide their sexy side.

Through our voice and tone, we seek to communicate confidence, making our target audience feel comfortable in their own body, tempting them to discover the mentality of our playground, where they can express their curiosity.

To be successful in creating content that is aligned with Temptation's goals, consistency is key. Content creators must understand and internalize the communication perspective of the brand to be able to produce content according to it. It is important to consider the following.

GENERAL LANGUAGE

Relaxed and conversational, friendly and accessible, reflecting at the same time the sexy and fun personality of our resort.

WORDING

Descriptive, inviting, playful and energetic. By using active verbs and adjectives, we inject our personality in our speech.

PRONOUNS

This sexy and free-spirited world traveler is a person who feels entitled and who appreciates acknowledgement and recognition. We speak in first person to you (the guest) and not in third person. This instills identification and closeness, which is very important to our brand.

DON'TS

At all cost, steer clear of language that is sexually explicit, raunchy, vulgar and that does not represent the trendy, sexy, upscale personality of our brand.

OUR VISUAL IDENTITY

3

CREATIVE STRATEGY

The graphic proposal for Temptation concludes the strategic work of communication.

The graphic, typographical, chromatic and visual elements used in the identity, connect in a timely and accurate way, for an attractive visual proposal with the values of the brand.

The identity, by itself, can transmit the fun and avant-garde character of Temptation.

Our logos are the visual identification of our brand, consisting of text and an icon, which despite looking well separate, should be used together for better recognition in the market.

The logos should be used as an identification element and not as a design element. It is important that the user of the visual identity system is aware of the need for coherence in corporate visual expression.

Coherence is the key to success in an environment where signs and symbols play a fundamental role.

Throughout history, the apple has been a symbol of Temptation, which is why it is a fundamental part of our image.

Icon of our graphic identity, the use of our isotype is a simplified way of recognizing ourselves in every place and every time.

It can be used as an ornamental badge, and in very specific cases, to replace the imagotype (mainly within the company's facilities as well as in small format materials, such as promotional or stationery items).

VARIANTS

The logotypes' color variants will be used if the conditions do not allow for corporate colors to be used.

The positive or negative versions will be used, as the correct way to use these applications in monochrome maintains the readability and understanding of the logo.

PROPORTIONS

RETICLE

It is important that the original proportions of the logos are not modified. Although the size is altered, it must be scaled proportionally.

Guiding us through this grid, we can reproduce in any medium whatever its dimension and means of reproduction. The symbols and logos will always keep the following proportions and composition (see illustration).

MINIMUM SIZE

To guarantee the optimal readability of the brand, maintain visual integrity and not lose recognition and identification, a minimum recommended size of 0.75 cm in imagotype and 1 cm in height for isotype is established, for digital uses the minimum is 30 px high (see illustration).

There is no maximum limit on the size of the logo.

PROTECTION AREA

The brand will always need a protection zone (minimum amount of "free" space that frames it), and it must be respected and not be occupied by any disturbing element.

Use the altitude line of the "x" as the unit of measurement to obtain the protection zone.

INCORRECT USAGE

- 01. Do not alter the original composition of the brand.
- 02. Do not individually increase or reduce the size of any of the elements of the brand.
- 03. Do not add contours.
- 04. Do not use gradients.
- 05. Do not rotate.
- 06. Do not use colors other than official ones.
- 07. Do not deform the brand.
- 08. Do not add any kind of effects.
- 09. Do not alter in any way its composition.

ON COLOR BACKGROUNDS

Avoid using the brand in full color with shades and backgrounds that can be confused with corporate or do not contrast well.

OVER PHOTOGRAPHY

The logo must be positioned in a clear or clean area of elements, preferably in a single color and without extreme tonal variations.

The slogan, "The playground for grown-ups", refers to the safe and comfortable spaces that our brand offers to the free-spirited traveler.

The slogan has two formats:

- 1. In two lines
- 2. Words in various sizes when typography is DIN Condensed Bold.

The first format can be accompanied by the logos, if it has a vertical divider line.

The second format must be completely separated from the logo without altering the accommodation of the words and/or their size.

In neither of the two cases can the slogan be modified in more lines or other colors.

Secondary slogan:

LET'S PLAY

Neither the slogan nor the secondary slogan can be modified in more lines or other colors.

PHOTOGRAPHIC STYLE

The image system of the brand consists of the following parameters:

CONCEPT

Every image should represent the values, characteristics and identity of the brand.

FACILITIES

Photos or representations of the hotel's signature areas.

ASPIRATIONAL

Images taken at the hotel or from image banks, which represent the emotions and lifestyle that the market can live through the brand.

Every advertising element must contain at least one of the 3 types of images, and no more than 2 photos of the same item. So that in the same ad we can project different messages, which together provide a more complete idea of the brand and its benefits.

It's important to consider that the texts are a fundamental part of any publicity; thus, the texts and images must be complementary and not be redundant with each other.

All images must be approved by the corporate Marketing Department, this to guarantee the correct application of the same.

PHOTOGRAPHIC STYLE

PHOTOS OF FOOD AND BEVERAGES

Make sure that illumination and focus are on the element that you are aiming to showcase. In attempts to highlight brightness, color and texture, lean on other elements that can dress up the image.

PHOTOS OF FACILITIES - FOOD, BEVERAGES AND BEACH

Maintain a standardized use of filters and saturation, preserving a vivid and warm quality.

ARCHITECTURAL PHOTOS

Daylight is the feature element that transmits life and warmth. When possible, avoid sunrises and sunset, as they tend to transmit nostalgia. If there is no use of people, try to use colorful elements that generate contrast or that are dynamic. The setting, costumes and props should project fun/party.

PHOTOS OF PEOPLE ON PREMISES

Use expressions according to the use or activity.

PHOTOS OF PEOPLE

Use warm colors with high contrast. It is recommended to use models with an average-build, ranging from 35 to 45 years of age. Men in casual/elegant wear and women with attitude in sexy attire.
